Marion County Juvenile Detention Center Annual Prison Rape Elimination Report Report Year: 2020

Prepared by: Mary Dozier, PREA Coordinator

The Marion County Juvenile Detention Center (MCJDC) continues to work diligently to ensure that the principles of the Prison Rape Elimination Act of 2003 (PREA) are a way of life and are engrained in the culture of the Marion County Juvenile Detention Center. The goal remains consistent that the sexual safety of the residents that we are entrusted with caring for are free from concerns of sexual harassment and sexual abuse while in custody.

We are two years into being PREA compliant and are continuing to strive to improve and enhance our processes. This year we are heavily focused on refining our paperwork to show that all our residents receive proper and adequate PREA information upon intake that is age appropriate and easy to understand. We will continue to work with our resident population and gather feedback from them in order to grow and improve our program.

The MCJDC has zero tolerance for all forms of sexual abuse and sexual harassment of juveniles. The MCJDC is committed to the prevention and detection and immediately responds to all allegations, pursues appropriate disciplinary action, and refers for investigation and prosecution all those who perpetrate criminal conduct.

The occurrence of sexual abuse at the MCJDC is very low due to high levels of security including, single occupancy rooms, cameras in every area of the building scheduled regular programming

2020 PREA Report

The Prison Rape Elimination Act requires us, as a juvenile detention facility, to collect accurate uniform data for every allegation of sexual abuse at our facility using a standardized instrument and set of definitions. This information shall be reported at least annually. The data collected shall include, at a minimum, the data necessary to answer all questions from the most recent version of the Survey of Sexual Violence conducted by the Department of Justice.

This report will be made readily available to the public through our website. There may be some information that is redacted when publication would present a clear and specific threat to the safety and security of a facility but must indicate the nature of the material redacted.

Sexual Violence Reporting

Since calendar year 2016, much prior to PREA implementation, the MCJDC has been participating in the annual Survey of Sexual Violence conducted by the US Census on behalf of the US Department of Justice. The summary of this reporting through calendar year 2019 shows the low number of sexual abuse and harassment incidents occurring at the MCJDC.

The MCJDC has zero tolerance for sexual abuse and harassment and is actively working to eliminate these activities in our facilities. The sexual abuse and harassment definitions used for the Survey of Sexual Violence and the MCJDC's incident reporting mirror the definitions from the PREA juvenile standards. These definitions are included as an appendix to this report.

Summary:

This year we have seen a small uptick of PREA reports being made compared to 2019. Though the number has increased, it is indicative of a good reporting culture that has confidence in the processes of the center. We continue to strive to have a healthy reporting culture that promotes transparency, safety and confidence in the facility.

Recommended Corrective Actions:

None at this time.
